

# Indiana Department of Natural Resources / Division of Water

## 30 Day Public Notice Report

---

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director  
Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water  
Room W264  
402 West Washington Street  
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

## 30 Day Public Notice Report

---

Application # : FW-24479

Stream : Pipe Creek

Applicant : Duane A Reavis  
P.O. Box 210  
6435 N SR 9  
Alexandria, IN 46001

Description : A farm pond measuring approximately 500' by 300' will be built to the west of the existing tree line and a smaller pond will be built approximately 250' to the east of the existing tree line. Details of the project are contained in information received electronically at the Division of Water on September 10, 2007 and in plans and information received at the Division of Water on

Location : Along the right (south) overbank, beginning approximately 600' upstream of the County Road 200 West stream crossing and continuing upstream approximately 1200'  
DOWNSTREAM: near Alexandria, Monroe Township, Madison County  
W½, NW¼, NW¼, Section 23, T 21N, R 7E, Alexandria Quadrangle

## 30 Day Public Notice Report

---

Application # : FW-24494

Stream : Duck Creek

Applicant : Calvin Fessel  
12822 East 239th Street  
Noblesville, IN 46060-6903

Description : Approximately 250' of Duck Creek's eroded south (right) streambank was stabilized with end dumped rip rap to protect the bank from further erosion. The rip rap conforms to the existing bank throughout the project area and was not keyed into the streambed. It has a maximum height of 20'. Details of the project are contained in information and plans received at the Division of Water on September 17, 2007.

Location : Beginning approximately 400' upstream of the State Road 213 stream crossing and continuing upstream approximately 250'  
near Noblesville, White River Township, Hamilton County  
SW $\frac{1}{4}$ , NW $\frac{1}{4}$ , SW $\frac{1}{4}$ , Section 35, T 20N, R 5E, Omega Quadrangle  
Quad Code: 4008528  
UTM Coordinates: Downstream 4443515 North, 590440 East

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

## 30 Day Public Notice Report

---

Application # : FW-24548

Stream : Henderson Creek

Applicant : Rockies Express Pipeline LLC  
Alice Weekley  
500 Dallas Street, Suite 1000  
Houston, TX 77002-4718

Description : A 42" diameter steel natural gas pipeline will be placed beneath Henderson Creek to transport natural gas produced in the Rocky Mountain basins for delivery to other pipelines and distribution customers located in the upper Midwest and Eastern U.S. The pipeline will be placed by the open-cut construction method. It will have a minimum of 5' of cover beneath the streambed and a minimum of 3' in the banks. Details of the project are contained in information received electronically at the Division of Water on October 12, 2007 and in plans and information received at the Division of Water on

Location : The pipeline will cross Henderson Creek about 2.1 miles (11088') southeast of Banta, Indiana, about 1.2 miles (6336') southwest of the intersection of 300 North Road and 575 West Road, and about 0.6 mile (3168') northwest of the intersection of 150 North Road and 575 West Road  
near Banta, Union Township, Johnson County  
NE¼, Section 8, T 12N, R 3E, Bargersville Quadrangle  
Quad Code: 3908652

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312 IAC 10

## 30 Day Public Notice Report

---

Application # : FW-24563

Stream : Main Beaver Dam Ditch

Applicant : City of Crown Point  
William Meeks  
101 North East Street  
Crown Point, IN 46307-4027

Description : The superstructure of the existing 3-span bridges carrying I-65 over Main Beaver Dam Ditch will be widened to add a deceleration ramp adjacent to the southbound lanes and an acceleration ramp adjacent to the northbound lanes for the proposed interchange at I-65 and 109th Avenue in Crown Point, Indiana. The 66.67' deck on the southbound structure will be increased by extending both the abutments and piers upstream 30.67' thereby increasing the out-to-out width to 97.33'. The 66.67' deck on the northbound structure will be increased by extending both the abutments and piers downstream 25.42 ' thereby increasing the out-to-out width to 92.09'. There will be fill added in the floodway for the ramp lanes which will be at the same approximate elevation as the I-65 through lanes. The fills final elevation will be approximately 680 NGVD. There will be minimal work in the channel. The ramp side slopes will be 3:1. Details of the project are contained in information received electronically at the Division of Water on October 18, 2007 and in plans and information received at the Division of Water on

Location : At the I-65 bridges over Main Beaver Dam Ditch located approximately 3.2 miles south of US 30  
at Crown Point, Center Township, Lake County

---

Application # : PL-20870

Lake : Lake George

Applicant : Walter A Leuenberger, Jr  
PO Box 2  
Woodburn, IN 46979-0002

Description : An existing 8' wide by 21' long boatwell will be filled with clean non-toxic material. The existing boathouse will be completely removed and trucked off site. Also, a straight concrete seawall will be constructed across 8' of the end of the boatwell to contain the fill material. The new seawall will connect to existing concrete seawalls on both sides of the existing boatwell. In addition, a concrete seawall will be refaced with a layer of concrete across 30' of the applicant's 40' frontage. The reface layer will be keyed to the wall's lakeward face. Details of the project are contained in information and plans received at the Division of Water on September 5, 2007 and October 11, 2007.

Statute/Rule : Lakes Preservation Act, IC 14-26-2, with the associated Public Freshwater Lake Rule, 312 IAC 11

Application # : PL-20897

Lake : Big Long Lake

Applicant : Jim Mooney  
7303 West Creekside Drive  
New Palestine, IN 46163-9564

Description : A new vinyl seawall will be constructed along 50' of the applicant's property following the lakes average/legal shoreline. The wall will consist of 18" x 6' sheets driven 3' into the lakebed leaving a 3' exposure from the lake bottom. The wall will then be capped with an aluminum cap with a heavy aluminum whale insert under the cap that will be tied back to the bank every 4.5' with are deadmen system. Clean pea stone will be used for backfill behind the wall then topped of with 3 to 4" of screened topsoil graded to the existing ground level. Details of the project are contained in information received electronically at the Division of Water on October 15, 2007 and in plans and information received at the Division of Water on

Location : 9235 East 530 South  
near Wolcottville, Milford Township, LaGrange County

Application # : PL-20898

Lake : Lake of the Woods

Applicant : David Oberly  
6355 Kng Road  
Plymouth, IN 46563-8909

Description : A 120'x 34' area at the end of a man made channel will be dredged out to a maximum of 4' to maintain boat traffic and temporary storage. All material will be pumped with a hydraulic dredge into a 70'x30' 10 ounce geo textile bag for containment and dewatering. The bag will be placed 18' from the water between the end of the channel and along the side of the road. Details of the project are contained in information received electronically at the Division of Water on October 15, 2007 and in plans and information received at the Division of Water on
